Technical Paper Submission Information

IEEE SoutheastCon 2024 will distinguish regular from short papers; a regular paper appears as a complete work in the proceedings and is presented in a technical session at the conference; whereas a short paper is published only as a 2-page extended abstract and less formally presented as a poster at the conference.

SoutheastCon 2024 adopts the IEEE standard conference proceedings format. All submissions should be written in English with a maximum paper length of eight (8) printed pages (10-point font) including figures. Papers exceeding 8 pages will not be accepted. Papers have to be submitted in PDF format.

Manuscript Templates for Conference Proceedings for Microsoft Word or LaTeX formats are found on <https://www.ieee.org/conferences/publishing/templates.html>.

Plagiarism and Double Submission

Papers are reviewed on the assumption that they do not contain plagiarized material and have not been submitted to any other conference at the same time (multiple submissions). These matters are taken very seriously, and the IEEE will act against any author who has engaged in either practice.
